

Metro VMS

Compact Variable Message Sign

Small footprint, energy efficiency and superior performance

Wanco's new, compact design for metropolitan areas

- Full-matrix message sign in two sizes
- Compact trailer
- Touchscreen controller with intuitive interface
- High quality from the brand you trust

Wanco's new Metro Variable Message Sign is our most compact portable message sign, designed for use in metropolitan areas. The Metro VMS features a full matrix of high-efficiency LEDs for reduced energy consumption, superior performance and outstanding legibility.

The Metro's compact trailer is easy to maneuver and deploy, particularly in urban areas where traffic is heavy and space is limited. The full-matrix display can present messages as text, graphics or a combination of both, for traffic safety, emergency response and special events.

Like all Wanco message signs, the Metro is versatile and dependable. It uses our new touchscreen interface for the easiest programming in the industry. For optimal positioning, the sign rotates independent of the trailer, and its height is fully adjustable.

Optional equipment includes radar-based speed detection, the Wanco Traffic Data Collector, GPS and remote communications with remote control. Optional jack-legs and outriggers provide even more adjustability and greater stability, while additional solar panels and batteries are available if more power is required.

To see or order the new Metro VMS, call **800.972.0755** or visit **wanco.com**.

Brief specifications

	Model WVTMM-L	Model WVTMM-M	
Display	60 x 30 pixels	48 x 30 pixels	Maintenance-free batteries
