

Wanco® Compact Light Towers

Diesel Models

WALi 4K • WALi 6K • WALi Pro 6K • WALi Premium 8K

WALi 4K

Compact model with big features

The base model shines bright with over 200K total lumens and a reliable Mitsubishi® 2-cylinder liquid cooled engine for run time of 250 hours before refueling. Upgrade to a Kubota® engine for run time of 310 hours.

Aim the lights individually from the ground, without tools, with the tower all the way down. Raise the tower to any height up to 24 feet with the hand-operated winch. Rotate the tower nearly 360 degrees even when extended, and operate the lights at any height.

FEATURES

- Four 350W LED lights
- 210,000 total lumens
- 24-foot tower
- Mitsubishi 2LE engine
- 4 kW generator
- One 120V 20 A GFCI receptacle

UPGRADES

- Auto-start/stop controller
- Selectable shore power inlet switch
- Kubota® Z482 engine for increase to 310-hour run time
- Combination tow hitch

WALi 6K

Genset upgrade for more power

The 6K model is spec'd closer to the classic diesel light tower everyone is familiar with. It gives you more juice for your power tools with a dependable Kubota 3-cylinder engine and 240 hour run time before refueling.

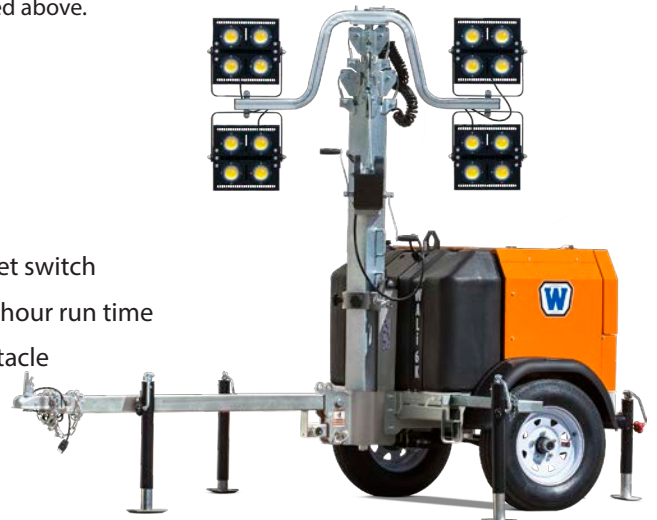

This model includes the same tower, winch and lights as the base model listed above.

FEATURES

- Four 350W LED lights
- 210,000 total lumens
- 24-foot tower
- Kubota D1005 engine
- 6 kW generator
- One 120V 20 A GFCI receptacle

UPGRADES

- Auto-start/stop controller
- LED balloon lights
- Power operated winch
- Selectable shore power inlet switch
- Low-speed engine for 300-hour run time
- One 240V twist-lock receptacle
- Cold weather package
- Combination tow hitch

WALi Pro 6K

LED upgrade for more coverage

The Pro 6K is brighter with more coverage—over 33,000 square feet at a minimum half foot-candle. Total lumens approach 250,000 with four high-efficiency 480-watt LED fixtures. This model is powered by a dependable Kubota 3-cylinder that provides nearly 200 hours of run time before refueling.

This model includes the same tower and winch as our other WALi models.

FEATURES

- Four 480W LED lights
- 244,820 total lumens
- 24-foot tower
- Kubota D1005 engine
- 6 kW generator
- 120V 20A GFCI receptacle

UPGRADES

- Auto-start/stop controller
- LED balloon lights
- Power operated winch
- Hydraulic tower lift
- Selectable shore power inlet switch
- Torsion trailer axle
- Cold weather package
- Combination tow hitch

WALi Premium 8K

Even more power

The Premium 8K is even more powerful for reliable, heavy use. This model features a more powerful Kubota engine and the same high-efficiency 480-watt LED lights listed above, providing 190 hours of run time before refueling.

This model includes the same tower and winch as our other WALi models.

FEATURES

- Four 480W LED lights
- 244,820 total lumens
- 24-foot tower
- Kubota D1105 engine
- 7.5 kW generator
- One 120V 20A GFCI receptacle
- One 240V twist-lock receptacle

UPGRADES

- Auto-start/stop controller
- LED balloon lights
- Power operated winch
- Hydraulic tower lift
- Selectable shore power inlet switch
- Torsion trailer axle
- Cold weather package
- Combination tow hitch
