

Hybrid Compact Light Tower

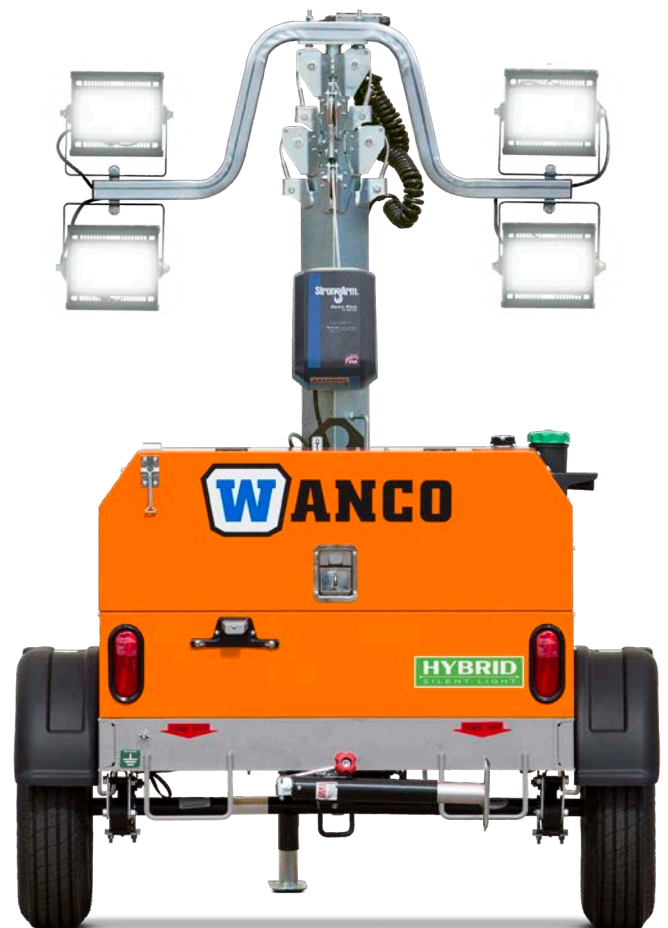

Superior performance with autonomous operation and long run time

- **Rechargeable Li-ion battery power**
- **Lowest operational cost**
- **Easiest to use**

Wanco® Hybrid Battery–Diesel Light Towers provide wide-area lighting on a compact, portable trailer. Highly efficient performance uses far fewer engine hours, saving fuel, maintenance, labor and cost.

The rechargeable lithium iron phosphate (LFP) battery powers the dimmable lights for up to seven hours at full brightness. The genset provides AC power anywhere, and kicks in automatically for recharging. Easily plug into shore power for charging.

The DSE digital controller allows manual operation or automatic on/off with the flip of a switch.

Hybrid Compact Light Tower Features

TOWER

- 23-foot telescoping tower with power winch
- 200W dimmable LED lights, 800W total
- Infinite brightness adjustment from 0 to 100%
- Aim lights from the ground

CONTROLS

- DSE controller for manual and automatic on/off operation
- Battery monitor provides the most useful power information including true battery state-of-charge
- Bluetooth® app for local remote monitoring
- Convenient time remaining feature

POWER

- Lithium iron phosphate (LFP) battery powers the lights
- Up to 7 hours at full brightness on battery power
- Up to 1400 hours on a single tank of diesel fuel at 50% brightness
- Selectable diesel or shore power for battery charging
- Diesel genset for AC power anywhere
- Kubota® or Mitsubishi® T4 engine and 4kW Mecc Alte alternator
- 120V convenience outlet with genset power
- Genset recharges battery in 3 hours

TRAILER

- Three outriggers and four leveling jacks provide stability
- Fold-up tow bar for compact storage
- All-welded galvanized structural steel frame
- Heavy gauge all-steel body
- 60-gallon onboard fuel tank

OPTIONS

- Hydraulic tower lift
- Victron VRM web-based remote power monitoring
