Compact LED balloon lights for bright, diffused area lighting

- Glare-free 360° illumination
- Reduced and diffused shadows
- Steerable heavy-duty cart with 17-foot tower
- Telescoping tripod stand rises to 14 feet
- Protective cover integrated with balloon

Wanco® LED Balloon Lights are a compact solution for your work area lighting. Their small size and ease of use translate to portability and quick deployment.

The Balloon Light Cart features a built-in handle, steerable wheels, flat-free all terrain tires and foot-operated parking brake. With outriggers deployed, the heavy-duty steel base and low center of gravity keep the light stable. The Balloon Light Tripod Stand is easy to carry and deploys in seconds. Both options meet DOT specifications for diffused lighting. Dual balloon fixtures are also available on Wanco diesel light towers.

The durable LED balloon light provides balanced glare-free lighting. The light goes on and the balloon inflates with a single switch. The light uses commercial power indoors or out, or a portable generator when used outdoors. A built-in cover protects the balloon during transport and stows in its own pouch attached to the top of the balloon.

To see or order the Wanco Balloon Light, call **800.972.0755** or visit **wanco.com**.

Common applications

- Road construction
- Police checkpoints
- Emergency repairs
- Disaster response
- Search and rescue
- Special events
