

Battery-Powered Light Tower

Rechargeable Lithium-Ion Batteries

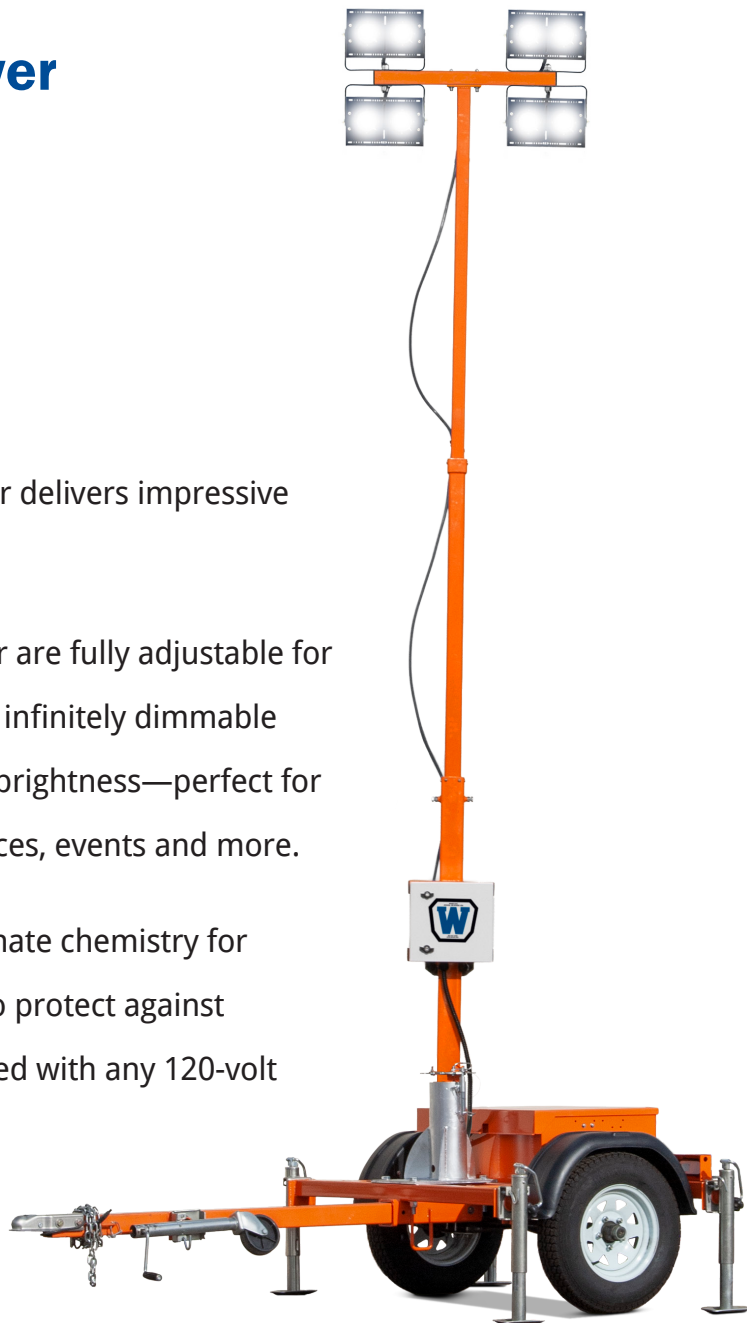

- **18-foot telescoping tower**
- **Dimmable LED lights**
- **24-hour on/off timer**
- **Digital battery monitor**

The Wanco® Li-ion Battery-Powered Light Tower delivers impressive LED lighting on a compact trailer or skid.

Four 200-watt light fixtures on an 18-foot tower are fully adjustable for directing light where it's needed. The lights are infinitely dimmable and provide more than 128,000 lumens at full brightness—perfect for construction sites, road work, emergency services, events and more.

Rechargeable batteries use lithium iron phosphate chemistry for safety, and have built-in power management to protect against excessive overcharging. Batteries can be charged with any 120-volt AC power source.
